CAREER OBJECTIVE

Motivated Computer Science fresher specializing in Artificial Intelligence and Machine Learning, seeking an entry-level Software / ML Engineer role to apply strong programming, analytical, and problem-solving skills while contributing to innovative technology solutions.

EDUCATION

B.Tech – Computer Science Engineering (AI & ML)	2022 – 2026
<i>Panimalar Engineering College</i>	CGPA: 7.4/10
Higher Secondary Education (XII)	2021 – 2022
<i>Central Board</i>	Percentage: 65%

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C
- **Core Concepts:** Data Structures, OOP, DBMS, Operating Systems
- **AI/ML:** Regression, Classification, Model Evaluation
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

House Price Prediction System <i>Python, Scikit-learn</i>	2024
– Built a machine learning regression model with feature engineering for price prediction.	
– Achieved approximately 90% prediction accuracy.	
Student Management System <i>Java, MySQL</i>	2023
– Developed CRUD-based application following object-oriented programming principles.	
– Integrated MySQL database for persistent data storage.	

CERTIFICATIONS & TRAINING

Machine Learning Certification – Coursera	2024
<i>Online</i>	
Java Programming	2023
<i>Online</i>	
Web development - Qspiders	2024
<i>Offline</i>	

LEADERSHIP

Technical Team Lead	2024 – Present
<i>College Technical Club - Hackathons</i>
